

Rishabh Jain

Portfolio: bizzxle.netlify.app

Github: github.com/rishabhbizzle

Email: rishabhbizzle@gmail.com

Mobile: +91-9643662949

Skills Summary

Languages / Frameworks: Python, JavaScript / TypeScript, React, NodeJS, Next.js, SQL, Tailwind, MUI

Applications: AWS, Docker, Nginx, PostgreSQL, MongoDB

Tools: Linux, Web, Windows, Git, GitHub, Curl, Supabase, AWS S3, Shadcn

Experience

Depo24

Feb 2023 – Present

Full Stack Developer

Full Time

- Developed and maintained a comprehensive e-commerce admin portal using **React.js, Node.js, MongoDB, AWS and PostgreSQL**, empowering administrators to manage products, orders, and inventory efficiently.
- Implemented **role-based access control (RBAC)** and integrated **analytics and reporting features** into the admin portal, providing administrators with real-time insights into sales, inventory, and customer behavior, facilitating data-driven decision-making, resulting in a **40%** increase in efficiency.
- Delivered a brand new Franchise POS (Point of Sale) system, facilitating streamlined order processing at franchise stores which significantly **increased the revenue**.

Includemy - Project Parvaah

Sept 2022 – Nov 2022

Full Stack Developer

Internship

- Worked on an Ed-Tech platform to help and support disabled people
- Collaborated on UI/UX design and development, resulting in **80%** improvement in user satisfaction
- Worked with various technologies such as **HTML/CSS, ReactJS and Django**

Projects

POS System | React, Node.js, PostgreSQL, AWS | Link

- Led the development of a Franchise POS (Point of Sale) system for the company (Depo24), facilitating streamlined order processing at franchise stores.
- Implemented order creation functionality, **allowing products to be added via barcode scanning**, similar to major retail cashier systems which helps in **reducing processing time by 50%**
- Developed a **comprehensive dashboard** for daily sales, statistical insights, and payment tracking for credit sales, resulting in a **20% increase** in sales accuracy
- Developed transactions dashboard for order management, enabling further processing such as **item fulfillment, cash on delivery, returns, and invoice generation**.

StatsCrave | Next.js, Node.js, MongoDB | Link

- An innovative Spotify streaming analytics platform for music enthusiasts that has **50,000+ views** (so far) and **4000+ unique users**
- It features **personalized dashboards** for users to track favorite artists, albums, and songs. Implemented intuitive search functionality for easy exploration of artists, albums, and songs, coupled with **detailed streaming statistics**.
- Curated a dynamic updates section featuring concise blog posts covering the latest trends and developments in music pop culture.

ReactRover | Node.js, AWS, PostgreSQL, Docker | Link

- An innovative deployment solution enabling **one-click deployment for React** applications.
- Leveraged **Docker** for consistent builds and utilized AWS **ECS** and **S3** for efficient management and storage of static build files, guaranteeing fast and reliable serving of applications to end-users.
- Implemented **real-time log streaming** and **user authentication** for enhanced project tracking.
- Supports both Vite and CRA, with customizable site URLs and seamless environment variable management.

Education

University of Delhi

2020 - 2024

Bachelor of Commerce (Honours)

Delhi, India

Achievements

- * Among **Top 10 teams out of 100** in Error 404 hackathon organised by Micro.
- * **Contributed** to one of the fastest growing UI component library i.e **Shadcn UI**.
- * **2 Merged PRs** of features requested in **Palisadoes Foundation - Talawa** (GSOC Org.)
- * Solved **400+ problems** on Leetcode and Geeksforgeeks
